pedestrian PRESENTS THE TUTORITOOL 2nd EDITION - FOR IMMEDIATE RELEASE

Leicester, England, October 2007 – Pedestrian releases the **Tutoritool™ Second Edition**, the sequel to the pioneering and critically acclaimed **Tutoritool™**, the **interactive turntablism tutorial tool**. Hailed as *“The best schooling in scratching money can buy”* (iDJ magazine, June 2005), the **Tutoritool™** rewrote the rules for instructional DJ products and scratch tools alike.

Created by Pedestrian, a not-for profit arts organisation based in the UK, the **Tutoritool™** was born from the experience of Pedestrian's team of dedicated turntablists in the 5000+ music workshops they have delivered. With the release of the **Tutoritool™ Second Edition**, Pedestrian has created **THE** must have battle wax to help develop the skills of DJs of every kind.

With even more essential sounds, beats and new spoken-word instructional tracks, the double vinyl **Tutoritool™ Second Edition** contains everything the DJ of today needs to become the turntablist of tomorrow. Locked loops, unskippable scratch sounds, tones and a suite of high quality Hip-Hop, Rock, Jazz and Drum 'n' Bass beats and samples provide an indispensable sound resource for scratching, battling, juggling and producing – The **Tutoritool™ Second Edition** will be at home in any DJ's record box.

The Tutoritool's proven approach to teaching the fundamentals of turntablism, using both printed and recorded lessons in scratch technique, gets DJs behind the decks and on the cut like no other scratch tutorial. From baby scratches to b-lines, the **Tutoritool™ Second Edition**, via its unique instruction booklet, marking stickers and high quality vinyl tools, builds the bread and butter skills of scratching whilst introducing the concepts of composition through turntablism.

Only the **Tutoritool™** gives the DJ a versatile scratch tool that will not only improve their skills but also develop along with their abilities. To quote **www.skratchworx.com**:

“We can't recommend this enough to every scratch DJ of all levels, you need this in your life.”

About Pedestrian

Pedestrian is a UK based, non-profit voluntary organisation that provides workshops, information, support and performance opportunities for young people in a range of emerging art forms. Pedestrian's turntablism education ranges from informal Jam sessions to formal musical training, provided by a diverse range of professional tutors.
